This is a three year contract. You will appreciate that this cost cannot be foreseen and hence is not possible to be included in a quote. The general understanding in these type of tenders is payment against documentary evidence. 11.	All document(s) in support of Technical Criteria of BEC to be furnished by the Bidder, shall necessarily be certified / attested by Chartered Engineer and notary public in Legible Stamp.	Please delete the requirement of certifying the documents by a Charter Engineer as a huge cost is required in doing so. Certification by Notary Public also involves cost but not in proportion to what a Charter Engineer asks for. Please do consider deletion for this clause, however, in case insistence by Notary Public is required, the same shall be adhered to. However, in the fitness of things and to ensure that the documents are not fabricated, certification of documents from the clients (who have issued such documents) is the best criteria, thereby doing away the extra cost involved in certification of documents. Please consider. Deletion of certification by Chartered Engineer is solicited.	Tender conditions prevail
